

Vision for Town of Moriah Tourism

Moriah will grow lodging and visitor activities at a pace that enables residents to evaluate how strongly the community wants to embrace tourism. Moriah's tourism growth will generate jobs, business opportunities, better returns from public campgrounds, support for stores and restaurants that are important to residents, and help create a better sense of community pride. Moriah will focus on visitors interested in its heritage (to include mining and film making) and on those seeking to recreate in forests and on Lake Champlain.
